

**THE MOST SOPHISTICATED WAY
TO CREATE YOUR PARK'S UNIQUE AMBIANCE
WITH UNLIMITED DESIGN OPTIONS**

For years, Polin has been changing the waterpark industry.

In 2006,

with our introduction of **L-RTM TECHNOLOGY**, we changed the way people perceive.

In 2007,

with our **TRANSLUCENT RTM** technology, we changed the way people see.

In 2008,

with our **PATENTED NATURAL LIGHTS AND SPECIAL PATTERNS**, we changed the way people feel.

In 2010,

with our **KING COBRA'S** built in-theming, we changed the way people tell stories.

In 2012,

with our **MAGIC SPHERE, SPHERES, SPACE SHUTTLE**, we changed the way people thrill.

In 2013,

with our **NEW GENERATION WATER-PLAY STRUCTURES**, we changed the way people have fun.

In 2014,

with our **SLIDE'N ROLL** technology, we changed the way people hear.

In 2015,

with the **NEW ART OF WATERSLIDE DESIGN**, we changed the future of waterparks.

In 2016,

with our **GAME TECHNOLOGIES** division, we focused exclusively on creating new concepts and technologies.

In 2017,

with our **Splash VR**, we deployed a virtual-reality experience for waterpark guests without impacting the structure of existing waterslides.

In 2018,

with our **GLASSY**, we pushed waterslide technology to the next level with the world's first fully transparent composites waterslide.

In 2019,

with our **TIME RIDER**, we offered 4 paths to allow the riders to experience different rides every time.

In 2020,

WITH OUR GAME CHANGER TECHNOLOGY UTEXTURE, WE NOW OFFER UNLIMITED THEME, PATTERN, AND APPEARANCE OPTIONS LIKE NEVER BEFORE.

Experience the future of waterpark today!

Kirman Arycanda de Luxe, Alanya, Antalya, Turkey

Polin Waterparks changed the way that waterslides look when it offered the first waterslides composed via Resin-Transfer Molding (RTM) technology. That manufacturing technology was revolutionary when it was introduced **14 years ago**, and today it continues to set the standard for the waterslide parts.

The result has been a range of waterslide options from Polin that range from solid colors to translucent with optional Special Pattern Effects, Natural Light Effects and, most recently, Slide'n Roll.

Next step, Polin has set a new standard for waterslide manufacturing excellence. Polin's technology innovation turns waterslides into genuine works of art with both interior and exterior designs - fully embedded into the production of the waterslides - that will change the way waterslides are themed forever more.

Polin waterparks is fusing waterslides with art, offering nearly unlimited opportunities for waterparks aiming to set themselves apart. Not only can they offer guests a thrilling ride experience but also fully themed slides that seamlessly reflect a park's motif in ways never before available with its Triangulated, Honey Comb, Graffiti, Wood'n Slide, and so much more.

Polin is now offering a game changer technology "**Utexture**" that will change your park ambiance with its wide range of pattern options.

This is the new generation VARTM (Vacuum Assisted Resin Transfer Molding) production technique that pushes the limits of imagination. You will be able to differentiate your facility with its unique technology that provides natural color transitions and artistic approaches.

- Unlimited theming possibilities
- Perfect chemical durability against UV and pool chemicals
- Aesthetic appearance
- Glossy finish
